# MOST OF LOOT IS RECOVERED

Secret Service Agents Locate $175,000 in Bonds.

TWO MEN ARE HELD FOR TREASURY THEFT

Bonds Found in Attic of Clerk in Treasury Department—Theft Takes Place Saturday.

Washington, March 20.—Working swiftly and quietly, secret service agents today recovered $175,000 in Liberty bonds, stolen from the United States treasury, and arrested two men charged with committing the theft.

The men under arrest are Charles A. Clevenger, twenty-five, a clerk in the bond department of the treasury, and E. O. Walmsley, an organizer of a fraternal organization.

The bonds were recovered in an attic of Clevenger's home at No. 516 Rhode Island avenue, N. W., by secret service agents Miles McCahill and Bart Bratton.

**Arrested in Home.**

Clevenger was arrested in his home in Washington and Walmsley was taken to Charlottesville, Virginia, where he moved a few weeks ago. According to secret service operatives, Clevenger confessed to the theft.

With the arrest of the two men, it became known that the bonds were stolen two months ago. They were in negotiable form and secret service operatives decided to "lay low" until an attempt was made to cash them.

Clevenger and Walmsley made several trips away from Washington with this in view, according to secret service agents, but did not succeed.

Clevenger is married and has a young baby.

**Bonds Negotiable.**

Washington, March 20.—Secret service agents are hot on the trail today of two employes of the United States treasury, believed to have fled south with upwards of $200,000 in Liberty bonds belonging to the government. The bonds are negotiable, according to the authorities.

One man, Charles A. Clevenger, twenty-five, an employe of the treasury, was held in the district jail today in connection with the case. He had been employed in the bond department of the treasury for two years.

While secret service agents and police are secretive as to details, it was learned that the theft took place Saturday, shortly before the treasury closed for the week end. Clevenger was locked up last night.

## PLAN NEW SEED-CORN TESTING EXPERIMENTS

Crops Committee of Farm Bureau Authorizes Move.

Plans for experiments with a new method of seed-corn testing were approved at a meeting of the soils and crops committee of the Marion County Farm bureau at the offices of the organization in this city Saturday evening. Preliminary experiments will be made in several different districts of the county. Among the men who will direct the tests are Calvin Baldinger, Claridon township; Alvin LaRue, Montgomery township; Harold Beers, Scott township; O. E. Barker, Pleasant township; Vance Clever, Tully township, and Foster Davidson, Grand Prairie township.

The residence of C. B. King, on Lafayette street, was entered Saturday evening while the members of the household were away, entrance being gained by raising a window. ## WINTER FURNISHES SNOW FOR LAST DAY

The lion chose the last day of winter for his lunings and but for the date on the trusty calendar one has the feeling that the modest violet and the no longer lowly dandelion might be far in the offing, so far as the weatherman is concerned.

## PLATE GLASS WINDOW BROKEN SUNDAY

Think Stone Thrown by Auto Tire Cause.

The large plate glass show window of the Powers Millinery shop was broken Sunday afternoon by a stone about two and a half inches long. The supposition is that the stone was struck by an automobile tire, as a number of similar stones were found along the street car track.

A hole four or five inches in diameter was broken in the glass, which was badly cracked, almost to falling out. The stone was found on the inside of the window.

# DECISION ON MEXICO NEAR

President Obregon Writes to President Harding.

AMERICAN RIGHTS UNDER DISCUSSION

Correspondence Between Executives Is Described as of a Most Cordial Character.

Washington, March 20.—Personal exchanges between President Harding and President Obregon looking to recognition of Mexico by the United States are in progress, it was disclosed in high administration circles. American officials believe early recognition is probable.

The only point of difference between the two executives, it was declared, is the desire of President Harding to make the formal recognition of Mexico coincident with the signing of a treaty pledging the southern republic to protect American rights within its borders, whereas the Mexican president would like the formal recognition to precede the treaty.

The correspondence, which has been going on for some time, is described as having been of a most cordial character. The American government was said to desire protection for American rights against the retroactive clauses of Mexico's constitution in treaty form. Persons familiar with Mexican jurisprudence declare that five decisions by the Mexican supreme court are necessary to establish a precedent.

There has been one decision favorable to American interests on the point at issue. The exchanges with the Mexican president were said not to have been the only international correspondence carried on by Mr. Harding since his election. Three European potentates, it was declared, have written personal letters to the president, as well as one South American president. The nature of the letters was not disclosed.

## MUSICIANS ORGANIZE MASONIC ORCHESTRA

A. W. Newby Is Elected President of Organiation.

An enthusiastic meeting of orchestra musicians was held at the Masonic temple Sunday afternoon when the Marion Masonic orchestra was formed. The following officers were elected:

A. W. Newby, president; Herbert Roush, vice president; H. R. Waddell, secretary; L. E. Meister, treasurer, and Bertram Myers, manager and director. These officers compose a committee on by-laws.

There are about twenty members at present. Any Mason who plays an orchestra instrument is eligible to membership and it is planned to add to the membership from time to time and thus make the organization one of the largest and best in the city. Following the election of officers Sunday, a rehearsal was held. These rehearsals will be held at regular intervals, the dates to be set later.

The Masonic orchestra expects to furnish music for the various Masonic bodies at their functions, and will have the support of all the bodies of Masons.

# PACT DEBATE IS NEARING END

### Three Proposed Reservations To Be Settled.

### ONE IS ACCEPTABLE TO THE PRESIDENT

### Another Provides That Outside Powers Shall Be Consulted in All Pacific Controversies.

Washington March 20—Three proposed reservations promise to become the final storm centers of the senate's debate on the four power Pacific treaty which entered its concluding chapter today under a unanimous consent agreement to vote finally on ratification Friday next

Only one of these reservations is said by its supporters to be acceptable to President Harding and it is the only one that administration leaders expect to see adopted It was framed in the foreign relations committee and declares the treaty contemplates 'no alliance' A group of administration senators still hope they may accomplish ratification without even this qualification, but those in charge of the treaty are not now inclined to try the experiment

A second reservation which is expected to provoke a determined fight is in process of formulation by various groups of senators opposed to unreserved ratification It will provide that outside powers shall be consulted in Pacific controversies, where their interests are affected The third is a blanket "no alliance' declaration originally framed by foreign relations committee Republicans, but abandoned by them after conferences with President Harding and reintroduced on the senate floor by Senator Johnson (Rep, Cal)

As the situation shapes up in its final analysis, the old groupings of the Versailles treaty fight are reappearing, but with many material alterations It is former members of the Republican "mild reservationists" bloc who have taken the lead in urging that the revised committee draft of the "no alliance" reservation be voted down On the other hand it was to placate a wing of the Versailles "irreconcilables," that the reservation was framed

Again, as in the Versailles treaty maneuverings, the administration leaders are trying by a middle course to keep peace between these two elements

The group of Versailles "irreconcilables' willing to take the four-power treaty with the 'no alliance' reservation has had for its principal spokesman thus far Senator Brandegee, who drew the reservation as well as the original blanket declaration now revised by Senator Johnson

# CONFERENCE ON BONUS PROBLEM

### Secretary Mellon Discusses the Matter with President.

### HOUSE LEADERS ALSO SEE CHIEF EXCUTIVE

### New England Members of House Committee Launch Attack on the Bonus Measure.

Washington March 20 Secretary of the Treasury Mellon was in conference with President Harding at the white house It is understood the soldier bonus situation was discussed

Republican house leaders later called at the white house today to discuss the bonus situation Representative Mondell the Republican floor leader, said the whole situation was laid before the president and that the compromise bank loan plan was fully explained

Among those who accompanied Mr Mondell to the white house were Chairman Fordney of the ways and means committee, Chairman Campbell of the rules committee, Chairman Towner of the Republican house conference, Chairman Foss of the Republican congressional committee, Representative Longworth of Ohio a member of both the ways and means and steering committees and Representative Mann of Illinois

An attack on the bonus measure was made in minority views which were made public by Representatives Treadway of Massachusetts and Tilson of Connecticut, Republican members of the ways and means committee They declared their belief that the bill if enacted into law would do more harm to the people of the country, the veterans themselves and their families included than it would do good to the individual beneficiaries"

The soviet military leader began his statement by discussing the reasons the United States to participate in the international economic conference Genoa He said

"It is my impression that the refusal and the reasons advanced for it increase the embarrassments which has characterized the American policy towards Russia

"Secretary Hughes says that the economic rehabilitation of Russia is impossible until steps are taken to investigate who was responsible for the present economic plight Every peasant and worker knows that the white armies and their entente supporters were responsible Everyone knows that the Czecho-Slovaks and the forces under Admiral Kolchak operated under the guidance of France and the United States and brought about such awful consequences as now exist

"The Russian price was a refusal of policy on the part of the United States in the activity of the American relief administration Or at least they thought they saw this activity as an effort on the part of the United States partially to recompense the starving masses for the injustice wrought by the policy of the Wilson government"

# TERMS COURTSHIP IN MANY CASES HUMBUG

Dr. O. F. Laughbaum Says Courtship Is Solemn Affair.

SERMON AT UNITED BRETHREN CHURCH

Minister Says Modern Idea Marriage Is Humbug Is Making Courtship Subject of Jest.

"The modern idea that marriage is a lottery is due to the fact that in so many cases courtship is a humbug," Dr. O. F. Laughbaum declared in a sermon at the First United Brethren church Sunday evening.

"Courtship has been the subject of jest for so long a time that it is time to warn the young people and arouse parents to their duty and responsibility," Dr. Laughbaum declared. He based his sermon on the text, found in Genesis 2:18, "And the Lord God said It is not good that the man should be alone; I will make him a help-mate for him."

**Is Solemn Affair.**

"Next to marriage, courtship is the gravest and most solemn affair relating to life on this side of the grave. Marriage is a lottery, simply because courtship is a humbug. Marriage is failure, simply because courtship is a farce. Lovers talk about stars, and flowers and poetry and give hints, and signs, and tokens, until they bewitch each other.

"Think of beginning courtship by silly flirtations, and then keeping it up by nonsensical, frivolous and silly conversation, as if you were two idiots, instead of two bright and capable persons of keen intellect and noble character.

"Read a few vile novels on love, begin a silly flirtation, become engaged, have a fine wedding, and then apply for a divorce, and the whole story is related in many of the greatest tragedies enacted on the face of the globe.

"It is an inherent principle that young men and young women should have affection and love for one another, and it is important that they should seek each other's society, that they may ascertain their fitness for each other.

**Should Be Court of Inquiry.**

"In courtship you are seeking a companion for life; it ought therefore, to be a court of inquiry, in which each should study the other, not away from home alone, but more especially in their respective homes. Is the young man obedient, kind and industrious? Is the young lady modest, affectionate, economical and true? Study the parents also.

"True affection founded upon genuine esteem must be the basis of honorable marriage, and it will not be a lottery. Do not depend upon love alone, but allow judgment and common sense to act in the court of marriage. Ask the Lord to aid you in selecting a companion, that you may value the heart more than mere outward appearance.

"The beginning, the means and the end of a happy married life is religious harmony. 'How can two walk together except they be agreed?' 'Be not unequally yoked together with unbelievers.' Many bad marriages are the result of bad courtships. Courtship is right and honorable, it is the time to search for companionship, which will result in a happy marriage, a picture of beauty, a paradise of love, a joy forever, a heaven on earth."

**The Very Spirit of Spring** is apparent in the new "Peggy Paige" Frocks. We are the exclusive store in your community privileged to feature these winsome dresses.

JOHN J. GRAY

"The best investment I ever made in my life was when I bought Tanlac. I have not only recovered my health but I have also gained twenty-five pounds in weight and feel just brimful of new life and energy," said John J. Gray, 1330 Hollywood St., Philadelphia, Pa., a popular salesman at George's Clothing Store.

"When I began taking Tanlac I had been in failing health for some time as a result of stomach trouble and indigestion. I missed many meals rather than to suffer the discomfort I knew was to follow if I ate anything at all. I suffered especially from shortness of breath and palpitation of the heart. Frequent dizzy spells and headaches added to my discomfort, and I was so nervous I got little rest either day or night.

"Since Tanlac toned up my stomach I am like a new man in every way and eat, sleep, work and feel better than in years."

Tanlac is sold in Marion by Kinsey's Pharmacy and by leading druggists everywhere.—Adv.

# HARDING HIGH WILL DEBATE WITH BUCYRUS

## In Marion in Triangular Debate Friday Night.

## NEGATIVE TEAM TO GO TO DELAWARE

### Question of Independence for Philippine Islands Will Be the Subject for Debate.

Harding High-schgol debaters are being groomed in the art of convincing argument in final preparation for a triangular debate with Bucyrus and Delaware High-schools Friday evening. The affirmative team will meet Bucyrus at the Central Junior High-school auditorium. The program will open at 7:30 o'clock. The negative team will journey to Delaware. "Resolved: That the United States Should Grant Independence to the Philippine Islands by January 1, 1925," is the subject of the debate.

Harding High-school debaters won the contest last year on points. They were victorious in the debate with Delaware at home, but lost at Bucyrus. In the two debates they piled up more points than either of their adversaries. Representatives of Harding High are confident that they will be able to repeat. They are hoping this year to win both debates.

The affirmative team which will meet Bucyrus here is composed of Miss Esther Williamson, Edwin Spohn and Kenneth Smith and Miss Naomi Rinehart, alternate. The negative team, which will journey to Delaware, is made up of Misses Eva Cushman and Doris Boudley, Thurston Waters and William Davis, alternate.

## WORLD WAR VETERAN TO DELIVER LECTURE

### At Central Junior High School Tuesday Night.

TOM SKEYHILL.

Tom Skeyhill, Australian World war veteran, will deliver an address on conditions in Russia Tuesday evening at the Central Junior High school. Mr. Skeyhill appears as a number on the Harding High-school lecture course. He has just returned from Russia and his lecture deals with actual conditions existing in that country.

Mr. Skeyhill entered the war in 1914 and was blinded in the Dardanelles campaign. He was sightless for two years and during this time carried on his war work, becoming one of the most famous of all war loan speakers. Regaining his eyesight almost miraculously, he has since talked in all of the largest cities in the United States and many of the smaller towns.

Mrs. John Damon Guthery has returned home from a six weeks' tour through the West Indies.

Hot Cross Buns For Easter Week

And if for Easter week, why not for every week? People used to celebrate Christmas only one day a year.

Now they're coming to see what a waste it is to keep all their kindliness and good cheer for a single day, and not disperse it royally through the year.

We first started baking Hot Cross Buns to help you celebrate Easter.

Now we've made them so irresistibly delicious that many of our customers insist it's a crime when we can make such Buns not to make them all the time.

So we're meeting their request by making them a Friday special every week through Lent.

## THE HUB OF COMMERCE.

*Daily Proverb*—"He who let go his hold after climbing a tree and he who borrowed money to lend came to grief."

A fashion note says that Paris belles are wearing bells on their garters. Calf bells, it is to be assumed.

But when prohibition becomes general the world over, what are we going to do for plesiosaurus and sea serpent stories?

Mrs. Asquith says the American newspapers pay too little attention to what she says and too much to what she is. In addition to that, they print pictures of her occasionally. Come to think of it, Margot is right. She has a grievance against them.

If the losers in the recent world conflict suffered more than the victors, it's simply impossible not to begin pitying them.

The liquor law enforcement officers unquestionably are correct in their statement that criticism of the liquor law encourages bootleggers, but it's a safe proposition to say that such encouragement isn't even in a faint degree equal to that they get from their sales.

"I utterly refuse to fall for this criticism of Senator Johnson," observed the restaurant philosopher at luncheon today, "away from the senate and politics, he's one of the finest fellows imaginable."

Something tells us that the great majority of the Democrats of the country will be inclined to classify their national chairman's statement, that the Republican administration has been a complete failure, among those recognized as important, if true.

Russia has sent another sharp note to Poland threatening war if raids over the border are not stopped. It's a dull day when the commissar for foreign affairs in the soviet government can't write a sharp note somewhere.

Well, it's leaked out why William Gibbs McAdoo, former President Wilson's son-in-law, moved to the Golden Gate state. He seeks "a large body of intelligent citizens who are not affiliated with any party and who would hold the balance of power." And William Gibbs would like to be its spokesman.

Another thing against the movies. They have revived the man with the drooping moustache which he twisted first at one end and then the other. Let us hope they will not popularize him.

Many things have been said about William J. Bryan, but there's one thing sure; he produces news, not publicity.

Unless the member nations of the league of nations get a hustle on themselves and pay up their dues how can they hope at the next meeting to secure a quorum.

We will have to hand it to Sir Robert Horne, British chancellor of the exchequer, for his consideration in suggesting that we assume and pay to the allies a third of the German indemnity. He might just as easily have asked us to pay all of it, and no doubt he exercised great self-restraint in refraining from asking us to go the limit.

The house has passed a congressional free-seed bill. If flower seeds are included they can be used to good advantage on the political graves of some of the fellows who are tying up legislation.

Paragraphers are human, and though they may not have the slightest thought of taking a trip to Europe, they are just about bound to be impressed a bit with the thought that the agents of the line with the biggest and fastest seamships afloat should consider them as possible patrons and send them literature detailing the advantages of their line.

## AGAINST RUM SMUGGLING.

Rum-running has revived some of the almost forgotten romances of the sea. The daring exploits of the shady craft which smuggled in liquors from the West Indies rival in some respects the deeds of English smugglers which formed a favorite theme for writers of stories for boys. But the romance of it can not be permitted to blind the citizens to the evil of it. The situation should be dealt with firmly. Whatever steps are needed to suppress the traffic should be taken without hesitation.

A report comes from Washington that the prohibition enforcement authorities propose that "liquor treaties" be negotiated with Great Britain and Cuba as an aid to getting control of the liquor exports from the Bahamas, Bermuda and Cuba, and also to improve the Canadian border situation. International treaties which have been negotiated for the purpose of putting an end to the opium traffic possibly will furnish a valuable precedent in the consideration of the matter.

China, cursed by the extensive use of this drug by its people, prohibited traffic in it some years ago, but had difficulty in enforcing the law because of the opium that was shipped into the country from India. An appeal was made to the British government, and as a result a treaty was drawn up under the terms of which Great Britain consented to take measures to prevent the sending of the drug into China. At a conference held in Shanghai in 1909, to which the governments of China, the United States, Great Britain, Austria-Hungary, France, Germany, Italy, Japan, the Netherlands, Persia, Portugal and Russia sent delegates, it was agreed that it was the duty of the respective governments to prevent the export of opium to any countries prohibiting its importation.

With regard to liquor smuggling it is stated that cargo vessels laden with rum anchor just outside the customs jurisdiction and send the stuff ashore in small boats. The vessels themselves, though engaged in violating the law of the United States, are beyond the reach of the American law-enforcing authorities. There is ample reason for a request to the governments under whose flags the rum-runners sail for an agreement by which their traffic can be stopped.

The letter received from Russia last week by a Marionite, plastered over with stamps to the total value of 2,300 roubles in lieu of fifteen cents postage, may be taken as a fairly good indication of what always comes to pass under the rule of the brand of "Liberty and Equality" of which we hear so much from the agitators.

### DUTY ACCORDING TO LIGHTS.

An honest cigar salesman, a forgetful customer and an over-zealous policeman combined to make the setting for a bit of near-tragic comedy.

The forgetful customer bought a cigar, laid down a coin and forgetting his change, hurried to his waiting automobile. The honest cigar salesman, behind the counter, called to the departing customer, who did not hear him. The honest clerk ran out of the store just as the forgetful customer was driving away. The clerk kept yelling as people along the crowded sidewalk jostled him along. The roar and din of traffic was terrific, but the zealous policeman came to the rescue. He saw the honest cigar clerk waving his arms and nodding at the departing automobile. Policemen learn to think quickly. Their job demands it. Sometimes they act quickly and think afterward, though the contrary as a rule is true. In this case the zealous policeman did both, but he thought wrong.

"Bandits again!" That was the blue coat's mental flash. He fired twice in the crowded street. He was a good shot. Both bullets struck the automobile. The frightened motorist stopped, of course. Why shouldn't he? Explanations, sorry zealous policeman, angry forgetful cigar store customer, abashed honest clerk!

And this all happened in Chicago, where honesty as the best policy has always been regarded as a poor insurance risk.

Yet who can say that the clerk did not do the right thing, or that the policeman did wrong?

Duty is ever alert. It is a service, an obligation of performance.

### WHAT'S ITS PRACTICAL VALUE?

Science is plunging right ahead. It is leaping and bounding this way and that, but it is going right ahead. But, sometimes, it would appear that science must be going overhead—that is, over the head of about everybody.

We have so-called modern science in mind. It hasn't been long ago since we were told that science had perfected an instrument whereby it could be told when a person was telling the truth.

Now, there comes a college professor with an invention for telling the strength or weakness of a kiss, or its recoil, and its effect on one's blood pressure. In other words, this invention is supposed to measure the kick in a kiss.

The instrument, its inventor claims, is so sensitive it will register the frigidity when woman kisses another woman she does not like, and measure the blood pressure caused by the stolen kiss, the mistletoe kiss, the kiss of the flirt, the soul kiss and every other kind of a kiss.

It may be of some value to science to learn how much "kick" these kind of kisses may or may not "kick up" along the kissers' nervous system, thereby causing or not causing a corresponding rise or fall in the blood pressure; but it's dollars to doughnuts that it won't have any affect on the ancient practice of the art of osculation.

We frankly confess that we can perceive no human uplift element in this California college professor's so-called "kissometer."

### TRYING TO GET BACK.

Now is develops that the so-called "Labor-Farm" movement was merely an effort of the Socialists to get back on their feet. The better class of Socialists abandoned the party during the war. The best of the laboring classes have refused to follow the lead of Plum, Nowat and Foster. The radical Socialists and the radicals in the labor unions, finding themselves without a very considerable following, have tried to make a show of forming an alliance with the farmers, but not a dirt farmer would have anything to do with them. A few professional paper farmers attended the conference at Chicago, but no one took them seriously. Socialism can't get back to its former strength by any such subterfuge.

## LIFE'S VAUDEVILLE.

[By Dr. James Hall Naylor.]

### BUNK HISTORY!

"England, our mother's mother! Come and see
A greater England here! O come and be
At home with us, your children, for there runs
The same blood in our veins as in your sons;
The same deep-seated love of liberty
Beats in our hearts. We speak the same good tongue;
Familiar with all songs your bards have sung—
Those large men, Milton, Shakespeare, both are ours."

Henry Ford has said all history is "bunk."

Henry is wrong—and Henry is right.

All history isn't bunk; but some history is bunk.

If we may believe the reports coming from over the country, especially from the East, a lot of bunk American history is being taught in our schools and colleges today.

Our current school histories of the United States have been compiled by college professors and other more or less eminent educators; and too many of these college professors and educators are parlor Socialists.

Or they think they are—which practically amounts to the same thing.

They are not really Americans, in the broadest and best sense; they are "world citizens."

They may not love America less; but they love the wide world more.

They don't believe in American patriotism; they believe in world communism.

So they seek to belittle the heroic struggle the American colonists made for liberty and independence.

They wouldn't hurt England's feelings; so they gloss over the cruel injustices the British put upon us in Revolutionary days.

Britain and America are friends today.

And may they ever be friends!

But Britain was wrong in revolutionary times—and America was right.

Let that truth ever be taught to American school children.

We have a reunited country today.

But the South was wrong in the 'sixties—and the North was right.

Let that truth be taught in our schools.

American history should be taught in a way to inculcate American patriotism.

The noble examples of patriotic service and sacrifice should be presented to our youngsters in a dramatic manner that will inspire a like spirit of patriotic ardor.

The most should be made of Paul Revere's ride; of the battle of Bunker hill; of Washington's crossing the Delaware; of the tragic sufferings at Valley Forge; of the Boston tea party; of Paul Jones' exploits; of Sheridan's ride; of the story of the heroes of the Alamo; of Custer's last fight; of the almost innumerable dramatic and heroic incidents of American history.

Too, there should be patriotic presentation of the admirable characters of Washington, Jefferson, Lincoln, Grant, Garfield, McKinley, Roosevelt—and the scores and scores of other American patriots.

American history need not be bunk.

Out upon the bunk American school histories!

William Jennings Bryan has thrown a real scare into the Democratic party. He has predicted a Democratic victory for next fall.

* * * * * *

### SOME DIFFERENCE—YES?

One great difference between the four-power treaty and the league covenant is that one was of Republican and the other of Democratic origin.—Brooklyn Eagle.

Well, it does make a marked difference in the real worth of a measure—as to which party originates it, that's a fact.

Not so—not so!
It Cox its head.

### JUST HUMAN, THAT'S ALL.

Some people profess to believe that newspaper men are supposed to stand by and snuffle at happenings and people in a cynical manner, but we can not think that this is a popular belief. There are thousands of incidents to show that in this respect newspaper men are no different than other folk. They are trained to gather news of whatsoever kind in a matter-of-fact sort of way, but there are many time in the average newspaper man's career that he is moved to the very depths. This is but natural.

Many people doubtless look upon newspaper men reporting news for their papers very much like they regard an undertaker—but they never stop to think that an undertaker ofttimes is deeply affected, though it is his business to conduct the funeral. It is the same way with newspaper men—they are there to report to the people what happens, and often the most graphic stories are written by reporters whose expression is touched with that occult thing called "feeling."

A short time ago when Federal Judge Kenesaw Mountain Landis passed his last day in court, reporters presented him a testimonial showing that reporters are just like their readers—common, every-day folks. The testimonial, handlettered around Judge Landis' photograph on a large plaque, follows:

"The good opinion of newspaper reporters is seldom sought, perhaps, but few men can say, as you can, that their departure made the press room blue.

"We've known you for a long time, and we'll miss you for a longer time. Not just because there is 'copy' in your forthright way of doing things, but because we think you are an honest-to-God man and a judge with the right kind of backbone.

"GOOD LUCK."

Never think that newspaper men don't feel like you do. They're schooled to hide their personal feelings in reporting because their business integrity demands it save in exceptional cases. But newspaper men have hearts and, too, they are the most appreciative people in the whole wide world.

GIVING GETS:—There is that scattereth, and yet increaseth; and there is that withholdeth more than is meet, but it tendeth to poverty.—Proverbs 11: 24.

# ASHLEY CAGE FIVE WINS PROSPECT TOURNAMENT

Smothers Prospect Quintet in Final Game Saturday Night.

PROSPECT FIVE PUTS CALEDONIA OUT OF RACE

Jolly and Sharp Stars, of Ashley Five—Final Score Thirty-Seven to Seventeen.

Marion county high-school basketball teams were compelled to acknowledge supremacy of a Delaware county competitor when the Ashley cagers came through the tournament at Prospect High-school Saturday with a clean slate. The Delaware county quintet took first place when they smothered the Prospect five in the final game Saturday night, winning by a thirty-seven to seventeen score.

Prospect eliminated Caledonia in the semi-finals Saturday afternoon, winning by a score of twenty-two to eleven while Ashley remained in the race by taking Richwood's measure twenty-eight to eight. In the final the Delaware county cagers gave a classy exhibition of the skill which landed them in first place in the Heidelberg tournament in February.

Jolly and Sharp were the outstanding stars of the Ashley quintet. Jolly's accurate basket shooting was a big factor in the victory over Richwood, while Sharp's deadly aim both on fouls and field baskets proved the undoing of Prospect in the final battle. Sharp alone accumulated twenty-one points in this game. The scores:

## CHURCH SOCIETY

**Revival Opens at Calvary.**

In spite of inclement weather, both morning and evening services Sunday for the opening of revival services at the Calvary Evangelical church were well attended. The meetings are in charge of the pastor, Rev. C. L. Allen and special music was furnished by Earl E. Heininger, of Butler, and also by the choirs and the choir. The subject in the morning was "The Harvest," Mr. Heininger sang a solo entitled, "Not a Star in My Crown."

In the evening Rev. Mr. Allen preached on "Thou Art and Thou Shalt Be." Mr. Heininger sang "Jesus, the Wonderful." The meetings will be held each week day evening except Saturday evening and will close Sunday, April 2.

**Observe Feast Today.**

The feast of St. Joseph, which fell on Sunday this year was celebrated this morning with a high mass read by Rev. Thomas Kearns, at St. Mary's church.

It was announced at the Sunday services that the way of the cross would be said Tuesday afternoon at 3 o'clock instead of Wednesday afternoon, during the Lenten season.

**Speaks at Epworth.**

Dr. John Sanford, of Columbus, a representative of the Ohio Anti-Saloon league, spoke on the work of the league at the Epworth M. E. church Sunday morning before a large audience. In the evening another splendid audience attended the services, which were in charge of the Epworth league and consisted of stereopticon pictures of the centenary work of the Methodist church. The slides showed how the centenary money is being used in the United States in rural districts, in congested districts in cities and also among foreigners.

**Addresses Combined Service.**

Rev. A. F. Beery preached on the subject, "Come and See," at combined Sunday-school and church services at Greenwood Evangelical church Sunday morning. In the evening Rev. Mr. Beery chose as his subject "The Second Coming of Christ." At the evening service Mrs. N. B. Weaver sang a solo and a special program was given by the choir, directed by Samuel Millisor. Both services were well attended. There will be services at the church this evening, beginning at 7:30 o'clock.

**Two Services at Wesley.**

Two evangelistic services were held Sunday at Wesley M. E. church. Miss Edna Banning, evangelist, spoke at both the morning and evening meetings and a large number was at the altar after each address. Miss Banning spoke in the morning on the subject of "Holiness," and in the evening chose for her subject, "Weighed and Found Wanting." The Sunday-school orchestra contributed several numbers during the musical program.

Services will be held each evening this week at 7:30 o'clock and on Wednesday, Thursday and Friday afternoons at 2 o'clock. Miss Banning will have charge of both the afternoon and evening services.

**Revival at Christian Church.**

Revival services began yesterday at the Central Christian church with a good attendance. There was one confession at the decision day in the Sunday-school.

Rev. J. O. Persinger, of Columbus, preached the first revival sermon to a well-filled house Sunday evening, taking for his subject, "Your Religion and Mine." "Religion is something one lives as well as professes," Rev. Mr. Persinger said. "The world wants to know what Christianity has that the world needs. The world is hungering for the fellowship as taught by Jesus Christ."

This evening Evangelist Persinger will preach on "A Live Man with Grave Clothes On."

**Open Revival Services.**

An old-time revival was begun at the International Holiness church on Waterloo street yesterday. There were sixteen who answered the invitation to go forward.

The meetings will continue until April 3. The pastor, Rev. James T. Maffin, will preach Monday and Tuesday evenings and Rev. John Fleming, of Ashland, Kentucky, will preach at 7 p. m. each evening through the week.

# ALICE JAMES BECKLEY FILES SUIT FOR DIVORCE

**Charges Husband Frequently Deserted Her.**

**ALTA FOREMAN GETS DECREE OF DIVORCE**

**From Norvall Foreman on the Grounds of Extreme Cruelty. Awarded $500 Alimony.**

Through Attorney L. E. Myers, a petition for a divorce was filed in the common pleas court by Alice James Beckley against Glenn Beckley. The parties were married here February 2, 1908, and the plaintiff charges gross neglect for more than three years. She alleges the defendant frequently abandoned and deserted her, leaving her without means of support and that she was compelled to work for her maintenance. She also claims he was of a most irascible disposition and nagged her. In addition to a divorce she asks that he be barred of any interest in her property.

**Granted Divorce.**

Alta Foreman was granted a divorce from Norvall Foreman by Judge Grant E. Mouser Saturday afternoon on grounds of extreme cruelty. The plaintiff was awarded $500 alimony payable $20 on the first of each month beginning April 1 and the costs were assessed against the defendant. The decree was ordered withheld for sixty days.

**Files Election To Take.**

An election to take real estate at the appraised value was filed in the common pleas court today by Rosa R. Lee, Pearl Ward and Grace Kucinski in the partition suit of Electa Nickler against Rosa R. Lee and others.

**Answer Cross-Petition.**

In the case of the state of Ohio against Harry S. Elliott and others, the defendant filed an answer and cross-petition in the common pleas court this morning through Attorney George T. Geran. For want of knowledge the defendant denies all the material allegations of the petition except as to the appointment of Harry C. Forry as deputy county treasurer.

For his cross-petition the defendant states that he appointed Harry C. Forry as his deputy for a term beginning September 6, 1915, and that the latter furnished bond in the sum of $5,000 with the American Surety company. He asks that Harry C. Forry and the American Surety company be made party defendants and if it's found that Harry C. Forry appropriated money to his own use as alleged in the plaintiff's petition, that judgment be found against them.

This morning leave was granted by Judge J. W. Wright, to make Harry C. Forry and the American Surety company party defendants in the action.

## BOWLING

**Ten Cities To Contest.**

Toledo, March 20.—From Albany on the east to Des Moines on the west, teams representing ten cities, will take their several flings at the wood in the American Bowling congress here tonight, in an endeavor to lift generous portions of the prize money fund and, mayhap, assume a seat in "king row," if not first place.

Syracuse, Columbus, Olean, Cleveland, Chicago, Toledo, Cincinnati, Kane, Pennsylvania, besides Albany and Des Moines, are the cities with teams scheduled for appearance.

Last night's rolling was featured by the excellent work of the Lincoln Life team, of Fort Wayne, this quintet rolling 2,898, which sent them into first place far out in front of the field. The Koors, of Dayton, have held the honor for four days with their 2316 total.

# PLAN TO MAKE EYMON CROSSINGS IN MARION

Receives a Pleasing Reception at Chicago Show.

ENGINEERS PLAN TO INSTALL CROSSINGS

A Circus and Wild West Show Billed for Marion—J. C. Sutton Taken Ill on Duty.

"We are tremendously pleased at the reception which railroad men gave the Eymon crossing which was on display at the Railway Appliance show in Chicago last week," said Byron E. Wilkins, president of the Eymon Crossing company, today.

"The crossing on display was the latest type and was a duplicate of the one installed for trial purposes on the New York Central railroad," he continued. "At present we are making the crossings in the plant of an established manufacturer in Springfield but we later plan to manufacture them here in Marion in a plant of our own. Chief engineers of the Pennsylvania, Hocking Valley and Burlington railroads expressed their intent to use the Eymon crossing in the near future. Engineers of Nickel Plate, New York Central and the Toledo & Ohio Central and others expressed similar favorable opinions."

The Railway Appliance show at Chicago was held at the same time as the meeting of the American Engineering association, which was organized by G. T. Wiswell, now eastern representative of the Eymon Crossing company. The original organization was formed in 1870 and was known as the Roadmasters' convention, as the roadmaster was the highest officer in the engineering department at that time. Twenty-three years ago the meeting of the conventions was divided and the American Engineering association now meets in Chicago with an attendance of more than 1,000 members and the roadmasters' convention in Cleveland with an even larger enrollment. Mr. Wiswell was the organizer and the first secretary of the first roadmasters' convention, which was held at Buffalo.

William T. "Bill" Drake has just leased lots owned by him on Fairground street at Greenwood street to Sell's Brothers Circus and Wild West, which will be in Marion Monday to Wednesday, May 22 to 24. The company will stage a dog and pony show in connection with its Wild West show.

J. G. Sutton, third trick telegraph operator at the "BN" telegraph office in the union station building, was taken ill of ptomaine poisoning early Sunday morning while on duty. Medical attention was required before the operator was able to leave the office. Operator W. O. Wilkins is taking his place.

W. C. Augenbright, second trick operator at the "BN" telegraph office, is off duty on a leave of absence. Operator F. A. Reimer is taking his place.

G. T. DePue, former master mechanic for the Kent division of the Erie and now mechanical superintendent of the Ohio and Chicago regions at Youngstown, was in Marion yesterday.

O. L. Enos, division passenger agent for the Erie at Mansfield, was in Marion today.

Lawrence M. Rengert, transitman in the engineering department of the Erie in Marion, returned to work today after an absence of several days, which he passed on his wedding trip.

# JUNIOR MASONS HOLD FIRST REGULAR MEETING

About Sixty Members of Marion DeMolay Chapter Attend.

FIRST WORK WILL BE GIVEN SATURDAY, APRIL 8

First Saturday Night of Each Month Is Appointed for Regular Meetings.

The Marion DeMolay chapter held its first regular meeting at the Masonic temple Saturday evening and about sixty of its eighty-seven members were in attendance. Several Masons were also present.

The boys did fine work in their first meeting, which was conducted by their own officers. The first Saturday night of each month was appointed as the regular meeting night and the first work by the new officers will be put on April 8. A meeting for practice will be held next Saturday evening.

Four applications were received at the meeting and the costumes for the order were purchased from a Columbus company. The costumes will be similar to those of the Ohio DeMolay chapter of Toledo, which instituted the local chapter recently. The costumes are expected here the latter part of April.

Notice was taken of the death of Frank Rieger, a charter member, and three members were chosen to attend the funeral Tuesday. They are Almon Starr, John McClain and Kenneth Monnette.
